place

- 1 **See your site.** Scan the code — home, full menu, catering page, your story, hours & map. Every word from public info; you approve everything before launch.
- 2 **Choose the plan.** \$99/month, no setup fee. That's the whole number.
- 3 **Choose your domain.** Options below — most are included in the monthly.
- 4 **We make your corrections.** Prices, photos, wording — fixed before anything goes on your domain. Live within 48 hours of your yes.
- 5 **Pick how you'll reach us.** Text or email — future changes go live within 2 business days, included.

\$99 / month

no setup fee

- ✓ The website itself — already built
- ✓ Hosting & upkeep, month after month
- ✓ Standard domain registration
- ✓ Updates by text or email — included

- ✓ The \$99/month continues for as long as you want the service
- ✓ **Cancel anytime** — domain & content always yours; site files free after 6 months

Your domain options (checked July 7, 2026)

noltsmarketplace.com	MAY ALREADY BE YOURS	Registered by someone in 2018 and kept renewed — is that you? If so, it's included: we simply connect it. If it belongs to someone else, we'd use an included option below.
noltsdeli.com noltsmarket.com noltsmarketplacefw.com	INCLUDED IN THE \$99	All three available today. Registered <i>in your name</i> — your property — and the yearly renewal is covered while you're on the plan.

Who are we? Scan to meet your neighbors at alreadydoneweb.com — see the other sites we've built (including two we run every day) and how the backwards business works. We live on a five-acre family farm in Huntertown.

Concept preview built from publicly available information. Nothing goes live on your own domain until you've reviewed and approved every word and price. Sandwich, salad and weekly-special prices already match your printed in-store menu (July 2026) — the rest gets your corrections before launch. Domain availability changes daily — options above verified on the date shown. If you ever cancel the monthly plan, your domain stays yours — you'd simply take over its standard annual renewal (typically ~\$12/yr) directly with the registrar.

Your Website — Quick Reference

For Doug & Sheri at Nolt's Marketplace. Keep this by the register — changing your website is as easy as sending a text.

Text or call: (260) 449-1236 •

joe@alreadydoneweb.com

Send it any time, day or night — changes go live within 2 business days (usually much faster).

Just text me things like...

“Ribs going up to \$14.99 half rack starting Friday.”

“We're closed Monday for Labor Day.”

“Can you add peach fried pies under bakery? \$3.99.”

“Here's a photo of today's donut case — put it on the front page.”

No special format needed. If anything's unclear, I'll text back to confirm before it goes live.

What's included

- Routine updates — as often as you need them
- Price, menu & hours changes
- New photos you send me
- Announcements & seasonal notes

Quoted separately

- Full redesigns or whole new pages
- Major new features (online ordering, etc.)

Good to know

- **Something looks broken?** Text me. Fixing technical problems is always free and always jumps the line.
- **Photos:** phone pictures work great — good light, send as-is. I'll handle cropping and sizing.

Service by Sarah & Joe Smith · It's Already Done Web Co. · alreadydoneweb.com · \$99/month, month to month · cancel anytime with 30 days' notice — your domain & content always go with you; site files yours free after six months

Website Service Agreement

Plain-language agreement for website design, hosting & maintenance

Provider	Joseph Smith, It's Already Done Web Co. (alreadydoneweb.com), [address] ("I", "me")
Client	[Business name], [owner name(s)], [address] ("you")
Website	[domain, e.g. noltsmarketplace.com]
Monthly fee	\$ [99] per month, due on the [1st] of each month
Setup fee	\$ [0 — waived for founding customers] (one time)
Start date	[date]

1. What the monthly fee includes

- **Hosting** — your website online 24/7, plus the annual registration of one standard domain name (up to \$ [25] /year). Premium domains — names with a higher annual registration fee or a one-time purchase price from a current owner — are available at your option and purchased by you at cost, with no markup; I handle all the technical work of acquiring and connecting them.
- **Content updates** — routine updates by text or email, as often as you need them: price and menu changes, hours, photos you provide, announcements, and similar edits to existing pages. Updates go live within [2] business days of your request. (Full redesigns and major new features aren't maintenance — see Section 2.)
- **Upkeep** — I keep the site working, secure, and loading fast, and fix any technical problem with the site at no charge.

2. What costs extra (quoted before any work)

- Full site redesigns, whole new pages, or major new features (e.g., online ordering) — always quoted and agreed before any work begins.
- Services from third parties you choose to add (e.g., paid advertising).

3. Ownership

- **You own your domain name** — it is registered in your name, and you keep it even if we part ways. While this agreement is active, I pay its standard annual registration; if the agreement ends, the domain remains yours and its future annual renewals (typically \$10–15/year for standard domains) become your responsibility, paid directly to the registrar.
- **You own your content** — your business name, text, prices, photos, and logo.

- I own the tools and processes I use to build and maintain the site.
- **Site source files — after six months:** if this agreement ends any time **after six months** of active service, a complete copy of your website's source files becomes yours. I hand them to you within **[14]** days at no charge, so you or any other provider can keep the site live. From that point, hosting, upkeep, and future domain renewals become your responsibility.
- **Site source files — before six months:** if you cancel **before** completing six months of service, the source files remain mine. To own the website outright before then — a transfer of the source files so you (or another provider) can host and keep the site live — I'll provide a one-time buyout quote; on payment, I hand over the files within **[14]** days.

4. Your responsibilities

- Confirm the accuracy of prices, hours, and claims on the site — I publish what you approve.
- Only supply photos and text you have the right to use.
- Pay the monthly fee on time. If payment is more than **[15]** days late, I may take the site offline until the account is current.

5. Term and cancellation

- This agreement runs month to month. **Either of us may cancel with 30 days' written notice** (text or email counts). No cancellation fees.
- On cancellation you keep control of your domain; your site source files are handled per Section 3 (yours at no charge after six months; buyout quote before then).

6. Reasonable limits

- I will do good, careful work, but I can't guarantee specific business results (sales, search rankings, or traffic).
- Hosting relies on third-party infrastructure; brief outages beyond my control can occur. I'll act promptly to restore service.
- My total liability under this agreement is limited to the fees you paid in the previous **[3]** months.

7. Governing law

This agreement is governed by the laws of the State of Indiana. We'll try to resolve any disagreement by talking first.
